RETAINED ASSIGNMENTS

The demands of a changing market and fluctuating workforce make recruiting a key member of staff within a short timescale difficult. Corporate Solutions offer a uniquely focused recruitment service which fills the crucial gap.

The retained assignment is designed to optimise delivery in fulfilling the recruitment brief, especially if the brief has a wider remit or where multiple personnel are required of a similar nature.

EXECUTIVE SEARCH

Where a senior level appointment is required the identification and recruitment of such person can be challenging, costly and time consuming. However, Corporate Solutions' expertise and proven track record of achievement in this area will significantly cut the risk for our clients.

To offer our clients extra comfort and assurance that the right candidate is chosen, we conduct in-depth organisational / cultural fit matching, in-depth profiling, pre-screening, reference checking and full offer and contract negotiation including notice period mediation and coaching.
